ORDER:

The Pradhan Mantri Gram Sadak Yojana is a Centrally Sponsored Scheme introduced by Government of India for achieving total connectivity in rural areas.

2. In the letter first read above the Hon'ble Minister of Rural Development, Government of India has sought proposal for new connectivity and upgradation of roads under Pradhan Mantri Gram Sadak Yojana for the year 2012 – 2013.

3. Consequently, the Commissioner of Rural Development and Panchayat Raj in the letter second read above, has sent the proposal for new connectivity and upgradation of roads under Pradhan Mantri Gram Sadak Yojana. The abstract details of proposals are as follows:

Table I

Sl.No.	Department	Number of Roads	Length in Km	Tentative Cost Rs.in Crores
1.	Rural Development and Panchayat Raj Department for Panchayat and Panchayat Union roads			
	Upgradation	917	1963.87	775.97
2.	Highways Department for ODRs	394	1426.24	430.71
	Total	1311	3390.11	1206.69

4. The above proposal includes laying of roads using Coir geo-textiles and RBI Grade-81 as part of R&D initiative suggested by Government of India. The details are given below:

Table II

Sl.No	New Connectivity roads under R&D Initiatives	No of Road works	Length of road (in Kms)	Value of project proposal (Rs in Crores)
1	Using Coir Geo Textiles	19	42.201	16.74
2	Using RBI Grade 81 (A soil stabilizing chemical)	7	16.505	5.71

5. In the letter third read above, the above proposal was sent to Government of India for consideration and sanction after obtaining the approval of the State Level Standing Committee headed by the Chief Secretary. The observation of the pre empowered committee meeting held on 15.11.2012, and the action taken on the observation are as follows:

Sl. No.	Observations	Action taken
a)	In case of Roads designed for more than 2 msa projected traffic for 10 years the pro-rata cost for traffic more than 2 msa should be borne by the State.	In case of roads having traffic of more than 2 msa (ODRs), the cost above 2 msa was taken to state share.
b)	The road way width and width of CD works in case of through routes should be 7.5m and for link routes it should be 6m. In case the roadway width and width of CD works proposed is more than 6m, the state should make appropriate provision from the State share.	Since the above proposal is mainly for the Upgradation of existing roads, the roadway width and the width of existing CDs is 7.5m. Hence, in order to maintain existing width at 7.5m, the prorata cost above 6m in the case of link roads has been taken to state share.

c)	The provision of Gravel shoulders, wherever applicable, should be replaced by earthen shoulders or the excess cost should be borne by the State.	Considering the soil conditions and traffic, the gravel shoulders have been retained in the estimate and the cost has been taken into state share.
d)	The provision of Maintenance cost should be as per Operation Manual and should be above 5%.	The maintenance cost has been increased above 5% for ODRs where the traffic is more than 2 msa.
e)	In case of long span bridges, the cost of bridges for more than 50m length and more than 6m carriageway should be provided from state share.	The pro-rata cost above 50m length and 6m width for long span bridges was taken to state share.
f)	The committee instructed to submit deletion proposals for two roads in Dharmapuri District sanctioned under phase II, and to submit fresh proposals based on current schedule of rates.	The two road works in Dharmapuri district have been deleted and the cost as per current schedule of rates included in the current proposals.

6. Accordingly, the project proposal was reworked and incorporating the above changes are as follows:
