Development Mahatma Gandhi NREGA Division, File  
NoJ-11017/39/2017-RE-VII, Date:26.10.2023

\*\*\*\*\*

I invite your attention to the reference cited.

As per the Annual Master Circular 2022-23, 266 works was listed as permitted works under MGNREGS out of which some works were previously both classified under Natural Resource Management works and Agriculture and allied works.

Now, in the reference 3<sup>rd</sup> cited, the MoRD has revised the 266 permissible works list, in which 58 works are exclusively classified as NRM works, 150 works are exclusively classified as Agri and Allied works and 58 works are exclusively classified as Rural Infrastructure works.

All the districts are instructed that, the expenditure on Natural Resource Management works and Agriculture works in panchayat wise should be analysed and work may be taken up accordingly as per the new list to improve the NRM expenditure to not less than 65% and Agriculture and Allied expenditure to not less than 60% of total expenditure. Also, the works IDs should be properly entered in NREGAssoft for each works as per the new list.

Hence, I request you to issue necessary instructions to the field functionaries to improve the expenditure on NRM and Agriculture works as per the new permissible list.

Encl: New permissible list.

To

The Principal Secretary/Secretary/Commissioner  
(In charge of Mahatma Gandhi NREGS)  
Rural Development Department  
All States/UTs(Except Delhi & Chandigarh)

Sub:- Reformation of NRM and Agriculture & Allied works in the MIS under Mahatma Gandhi NREGS.

Madam/Sir,

This is regarding the reformation of Natural Resource Management (NRM) and Agriculture & Allied works in the MIS of Mahatma Gandhi NREGS

2. Prior to FY 2023-24, the permissible works under the Scheme was arranged in such a manner that, many works under Agriculture & Allied category were also considered under the NRM category. Accordingly, the mapping of works in NREGASoft database had been done in the similar manner with overlapping of works between two categories i.e. Agriculture & Allied and NRM. Due to the overlap, the exact number of permissible works under each categories cannot be derived, which results in the overlap of data between both categories while drawing out physical and financial progress/achievement.

3. To ensure the effective implementation & monitoring of the mandate of the Mahatma Gandhi NREGA Act, an exercise has been carried out to understand the 266 permissible works bifurcation into three broad heads i.e. NRM, Agri & allied and Rural Infrastructure works. This bifurcation is ensuring no overlap between any head and the same has been mapped with the data base The number of works under each broad head is as following:

<b><u>Broad head</u></b>	<b><u>Number of works</u></b>
i. Natural Resource Management (NRM)	- 58
ii. Agriculture & allied	- 150
iii. Rural Infrastructure	- 58
<b>Total</b>	<b>- 266</b>

Contd/.....

4. As per the Mahatma Gandhi NREG Act, at least 60% of the works taken up in a district, in terms of cost, shall be for creation of productive assets directly linked to agriculture and allied activities through development of land, water & trees and as per the joint guideline on Mission Water Conservation (MWC), 65% of the total expenditure in a **water stressed block** (MWC block) should be made on NRM related works.

5. The list of permissible work related to NRM, Agri & allied and Rural infrastructure has been attached here with for reference and the States are requested to carry out the works according to the above three distinguished categories.

  
(Amit Kataria)  
Joint Secretary
